

JAPAN IN ORBIT

From launch to orbit; XL Japan, under the enthusiastic guidance of Masami Sato and the XL team, has been holding Momentums, Breakfast meetings and having an excellent time as XL is introduced to another new country. XL Japanese Life Members are enjoying Wealth Dynamics and showing up to meetings on a regular basis.

SPINNING FOR CHARITY

Salesforce.com and The Salesforce.com Foundation, that are committed to supporting the charter of the Special Olympics Singapore, recently held a fund raiser on its behalf. The success of Spin for Charity, which raised more than S\$115,000, will send at least 50 athletes to the 2007 Special Olympics World Summer Games in Shanghai, China this October.

These funds will help the organization to continue to provide opportunities and volunteer support for athletes to participate in year-round sports training and competitions, both locally and overseas.

“Having supported the Special Olympics for several years,” organiser Steve Russell President & CEO, Asia Pacific salesforce.com says, “I strongly believe that our support of these amazing athletes empowers them to be even more handi-capable than they already are.”

If you would like to become more involved in the Special Olympics Singapore either through additional donations or volunteer support contact Ms. Ai Hua Koh of the Special Olympics Singapore.

If you were unable to attend the event and would like to make a direct financial contribution, please visit: <http://www.specialolympics.org.sg/>
